MISS ROXELLINA HOMAN, thirty years of age, has recovered of Mr. Alexander Earle, a prominent member of the Presbyterian Church, and upward of fifty years of age, \$15,000 in a breach of promise suit. The old fellow paid pretty soundly for trifling with the innocent young girl's affections.

THE 10th inst. was the fourth anniversary of the Cuban Republic. The inability of the Cubans to assert their independence, and the failure of the Spanish government to quell the rebellion, would indicate that both governments combined are exceeding-

In Rhode Island on the 2d inst., three amendments to the Constitution of that State were voted upon, and all of them were rejected. The first amendment proposed to abolish the property qualification for suffrage for citizens of foreign birth. This was by far the most important, and on this the vote has been most important, being 3,114 in the affirmative, and 6,366 in the negative. The second amendment proposed to abolish the Registry tax of \$1 for the support of public education as a qualification for suffrage for non-tax-payers. This received 8,614 votes to 5,883 in the negative. The third amendment proposed to prohibit any appropriation of public money for the support of sectarian schools. This received 5,098 affirmative votes against 4,424 in the negative, which is not a Constitutional majority, as it requires three-fifths of the number voting to ratify an amendment. These amendments were proposed by the Democrats, but were defeated by the Radicras, who are in a majority in the State. Negroes can vote in Rhode Island, without the property qualification, but white men, not born in this country cannot.

GREEDY GRANT. Grant's idea of the Presidential office is

aptly illustrated in the following article from the Columbus (Ohio) Statesman. He regards it simply as a money-making machine and a means of aiding his relations at the expense of the nation. The Statesman

"In the Congress of 1868-'69, just before the inauguration of Gen. Grant, a proposition was made in the Committee on propriations of the House of Representaves, by a Radical Congressman ished to stand well with incoming administration, to increase the of the President to \$40,000 per The idea was to secure ncrease prior to the inauguration, as the constitutional prohibition would stand in the accusations launched against that county the way after Grant was inducted into office. A Republican member of the committee from Ohio, recognized as an intimate friend of the President elect, and one of the earliest supporters of his nomination, took strong grounds at once against the measure as impolitic and wrong in principle. He declared that Gen. Grant would scorn any such gratuity in the present condition of the country. The influence of the gentleman was sufficient to defeat the Increase. The Ohio Congress man met Gen. Grant a day or two after and thinking he had done him a good service, related the action of his imprudent friend on the committee, and how he (the Ohio member) had defeated it, and thereby saved the party and President elect from scandal. What was the Congressman's and in the most insulting manner declared, It is a matter of perfect indifference to me hether you raise my salary or not."

But now comes the sequel. The States-Grant, changing from an intimate friend, Ohio Congressman, and in every im- single outrage in the county since the Kuaginable way has let him know that Klux Investigating Committee left it. > "There is in this State a United States Judge, whose fidelity to his trust no man will doubt. He could easily be examined, and the result of his examination would be that the laws of the United States have been, and are rigidly enforced in his Courts. Judge Bryan has heard cases from all points of the State, and his officers have regularly made arrests where they went armed with warrants, and the juries in his Courts have done their duty with remarkable fidelity. Touching Grant's assertion that "the constituted authorities of the State are unable to protect the people," the Charleston Courier reproduces the following extract from a report of an interview its reporter had with Gov. Scott:

Reporter. Well, Governor, might I ask what did you sav? Governor. Certainly, sir. In my speech before the committee, which lasted only ten minutes, I was careful to avoid any allusion severely condemning some of my recent ap-pointments. I stated that I was glad that severely condemi they had come to the same conclusion as myself as to the proper policy to be pursued.

I believed in the enforcement of the civil law, as it is the only law in a Republic by which the liberties of the people can be pre-served. I said we had enough of martial law in 1865 and 1868 to convince me that Reporter. Then you are opposed to mar-

most completely in the hands of the Radicals. All the State officials, from the Governor down to the rural constable, are of the Radical persuasion. Their Legislatures are intensely Radical, and none but Radicals are permitted to serve in the militia, or on the police. It is, therefore a shameless perversion of the truth to say that, with all this power in their hands, the State authorities are unable to cope with, and effectually suppress whatever disturbances are in their midst In respect to South Carolina, the whole course of the Radical party has been one of intense vindictiveness. The simplest breach of the peace has been exaggerated into a riotous demonstration, and quarrels, merely personal in their origin, have been perverted into grave political offences. No charges brought against these people by the men who plunder and oppress them are regarded as too monstrous for belief, and never, in the very worst days of Venetian tyranny, were secret informers so heartfly encouraged to vent their malignity against reputable citizens, as they are now, at the South, by the Ku-Klux Inquisitors under the leadership of Senator Scott. The proclamation just issued by Gen. Grant does not follow merely, in natural sequence, the result of the recent elections in Pennsylvania and Ohio, but is a note of warning to the people of Texas, for daring to spurn the Radical ticket in that State, and elect four Democrats to represent them in Congress. It is intended, even still more, as a menace to the people of Charleston for venturing to carry that city for the Democrats, and to put out of the muncipal offices the herd of wolfish Radicals which has preyed upon them so long-Let it also be remembered that, of the nine South Carolina counties described by Gen. FARMS AND TOWN LOTS: 900 ACRES! ON WEDNESDAY AND THURSDAY, THE

25th and 26th Days of October, 1871,

I will attend on the premises and offer at public sale to the highest bidder about 900 acres of the finest land in Lincoln county, a large portion of it, perhaps, not surpassed in the State.

I will first offer for sale the tract on which the late James Bright, Sr., resided during his lifetime, containing about 450 acresl, ying adjacent to the town of Fayetteville, and a portion within the corporation of said town. Sald tract is intersected by the Fayetteville and Tullahoma and Fayetteville and Shelhyville Turnpikes; is well supplied with excellent drinking and stock water, and on it is situated a good dwelling house, the residence of the late James Bright, Sr., with stables, harn, orchard, out-honses, and other improvements of a good stock and grain farm. A large portion of said tract is well set in blue grass—is well timbered and well watered. These advantages, in connection with the fact of their close stoximity to the town of Fayetteville, (no part of said lands being more than two miles from the Courthouse,) make them the most desirable that can be offered in this county.

The portion of said tract lying within and adjacent to the town of Fayetteville will be divided into lots suitable for building purposes, and the remainder of said tract into two lots.

If will next offer for sale the Tract of Land situated in the head of Elk river, about six miles remainder of said tract into two lots.

If will next offer for sale the Tract of Land sittated in the bend of Elk river, about six miles from the town of Fayetteville, containing about 450 acres. Said tract is intersected by the Winchester and Alabama Bailroad, and will de divided into two or more lots, as may be thought most advisable. most advisable.

It lies well for caltivation, and is unsurpassed in point of fertility—is adapted to the growth of cotton, corn, rye and other cereals, and portions of it fine for permanent meadows and blue grass. It is well supplied with an abundance of the
